Start the dance 32 counts after the first beat at 0:20, where the lyrics start. This dance isn't meant to be the world's most difficult dance, so just go for it. No tags, no restarts, enjoy!

Optional restart: If you want the dance to fit music all the way to the end, you need to include a restart. However, the dance works well also without the restart. On the wall 10 (when facing 9 o'clock), dance only the first 12 counts. Make sure that on count 12 you have transferred weight to left, since the first step of the dance is right step forward!
