### "HEEL AROUND", CROSS, SYNCOPATED SIDE ROCK, CROSS, REPEAT

This is a move called "heel around" from a form of swing dancing called Carolina Shag

- 1 Bring inside of right heel in to back of left ankle (Achilles Tendon area), tip of right toe pointed down to floor, (not hooked behind), right knee out to right side, both legs slightly bent, turning left on ball of left foot to face left 45 degree angle
- 2 Step right foot across front of left foot
- &3-4 Rock left to left side squaring off with side wall, step slightly back with right foot, step left foot across front of right
- 5-8 Repeat above 4 counts

REPEAT

### TAG

When using the song "Cowboy Blues" by Gary Allan, there is a 36 count intro and you will start with the vocals on the word "there." Then, there is a 4 count bridge after the 1st and 5th repetitions. On these repetitions, repeat the last 4 counts of the dance. This means you will do "heel around" 3 times on those repetitions. It helps to listen for the instrumental section where he whistles to know the second bridge is coming. This dance goes really well to many different swing style songs. Use your favorite.
